## *From Our State President*

---

There is an added sense of security and satisfaction attached to buying from an established organization with a reputation for fair dealing. Breeders comprising the Northwest Missouri Shorthorn Breeders Association furnish cattle so that it is possible to make these sales twice yearly. They consign cattle with sufficient quality and breeding to make these sales increasingly attractive to buyers looking for choice breeding cattle. The cattle offered by the breeders of the Association have an added incentive in that you know they are the backbone of the farms from which they come. They have shown a profit for their producers over the past several years. They are representative of the best cattle available from the leading herds in this section.

With the present trend to more grass and legumes, cattle offer the most practical solution to utilize it. Whether you are establishing a herd of shorthorns or adding to an established herd, good doing, well bred shorthorns such as members of this association produce and offer at their sales should be profitable investments for their buyers. Experiments have proven inferior breeding stock to be unprofitable investments. These cattle have been produced by men who are permanently in the business of breeding cattle and whose aim is the production of cattle that will be satisfactory to the purchaser and a credit to the breeder.

J. L. HERTZLER, President

Missouri Shorthorn Breeders Association

# SHORTHORN SHOW

This show and sale is co-sponsored by the Missouri State Board of Agriculture, Rockport Community Club, and the Northwest Missouri Shorthorn Breeders Association, Inc.

## MISSOURI STATE DEPARTMENT OF AGRICULTURE AWARDS

The State of Missouri, Department of Agriculture, will award to all animals in each class that can qualify as blue ribbon, red ribbon, and white ribbon animals, their respective earned ribbons and a cash premium of \$6.00 for Blue, \$4.50 for Red, and \$3.00 for White.

These awards are made possible through an appropriation by the Missouri Legislature to encourage the production, distribution, and use of better breeding animals in Missouri.

**BLUE RIBBON** Animals are excellent individuals.

Only animals of outstanding quality, unusually good type, symmetry, and conformation, in sufficiently good flesh and adequately fitted to demonstrate fully their qualifications will be placed in this group. These are animals of unusual merit that would in every case be a valuable addition to the top breeding herds of the state.

**RED RIBBON** Animals are superior individuals.

Only animals of superior quality, of good type, and without any major defects, plainly demonstrating the superiority of their qualifications will be placed in this group. These animals should be sufficiently good to improve any commercial herd and most small breeders' herds.

**WHITE RIBBON** Animals are good individuals.

Animals of somewhat less desirable type and with one or more rather objectionable characteristics may be placed in this group. These are animals that would improve commercial herds and would in every case be superior to grade and scrub animals. Unworthy animals will not be classified.
